## **DETAILED ACTION**

### **Examiner's Statement of Reasons for Allowance**

Claims 1-7, 9-17, 19-29 are allowed over prior art.

The following is an examiner's statement of reasons for the indication of allowable claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Closest prior art of record directed to Rhoads (US Appl. No. 2001/0023193 and Us Pat. Appl. No. 6,311,214 ) and Jotcham et al. (US Patent No. 6, 085,903). Rhoads, Us Pat. Appl. No. 6,311,214) fails to teach or fairly suggests "additional information provided by the at least one taggant is utilized by said hand-held system for at least one of extracting or supplementing the information encoded within the digitally watermarked image" recited in independent claims 1, 9 and 19.

None of the prior art of record, either taken by itself or in any combination, would have anticipated or made obvious the invention of the present application at or before the time it was filed. The subject matter regarded as allowable by the examiner in claims 1, 9 and 19 is the recitation of additional information provided by the at least one "taggant" where "taggant" is defined in the specification as being "physical security features" such as UV fluorescent color ink threads, fibers, planchettes and/or particles ( specification page 3 line 30 through page 4, line 1) .

Art Unit: 2131

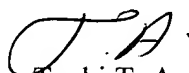

Dependent claims 2-7, 10-16, 20-29 are also allowed by virtue of their dependencies.
